

COOKING
CHARBROILER

BCB

EFFICIENT – RELIABLE – INNOVATIVE

BEST COOKING RESULTS

Improve the productivity of your kitchen and reduce wastage with a consistent product time and again. Targeted heat control ensures heat is focused toward the cooking area, and improved grate heat distribution ensures high quality cooking even when your kitchen is at its busiest.

EASY TO USE

Improve the efficiency of your kitchen and the working environment for your staff with an easy to operate machine, with cleaning made simple thanks to removable grates and cassette style heat deflectors. Individually controlled main burners, secondary ignition Piezo pilot burners and a waterless drip tray mean users can operate the machine safely and efficiently.

RELIABILITY

Enjoy total peace of mind with reduced service costs and decreased down time, the HOBART Charbroiler is constructed from robust, strong stainless steel with a removable internal heat deflector panel to minimize operating problems and ensure complete reliability.

ECONOMY

Decrease operating costs with improved thermal efficiency and heat targeted to the cooking area. Increase profitability using up to 18% less energy, whilst improving kitchen operation with increased cooking area and reduced ambient temperatures, for a more comfortable working environment.
