

HOBART wins BEST PRODUCT GREEN AWARD 2026

Offenburg, 17 March 2026 – HOBART GmbH has been awarded the Best Product Green Award 2026 in the Technology category by the trade magazine KÜCHE. The award was presented to the FLOW Line flight-type dishwasher for its innovative SMART VISION CONTROL feature.

AI-supported warewashing technology

The FLOW Line combines artificial intelligence with smart automation solutions. The AI-based feature SMART VISION CONTROL recognizes every item of wash ware placed on the conveyor belt and adjusts the wash and rinse parameters in a fraction of a second. The AI-supported ASR² automatic soil removal feature, for which a patent has been filed, adjusts the drain cycle according to the detected soil level of the items.

With this award, the magazine honors products that impress with particularly sustainable technologies and make an important contribution to energy- and resource-efficient kitchen processes.

About HOBART:

For decades, HOBART has been one of the world's leading manufacturers of commercial warewashing equipment. We are also one of the best-known providers of solutions in the fields of cooking, food preparation and food waste technology. For over 125 years we have been developing and distributing high-quality appliances and systems at our production site in Offenburg that are in use worldwide. Our customers include hotels, restaurants and caterers, commercial kitchens, bakeries and butchers, supermarkets, industrial companies, airlines and cruise ships. Since 1999, we have been part of the US-based Illinois Tool Works (ITW) Group that manufactures and distributes a wide range of products through its 44 000 employees in independently operating companies worldwide.
