GLASSWASHERS **GXB**

**HOBART**

## PROLITE

### TOTAL PERFORMANCE IN YOUR KITCHEN

At HOBART, we take pride in providing reliable and innovative high quality kitchen equipment that has been engineered to ensure that whatever challenges the day may bring - you can make it happen with HOBART. **Let's make it happen!**

#### PROLITE **GXCB**

The perfect solution for high washing volumes but low installation height under the counter. Rack size 500 x 500 mm, compact installation height of 705 mm.

#### PROLITE **GXB**

The large model for the bar, restaurant and hotel industry with high washing volumes. Rack size 500 x 500 mm, installation height 825 mm.

# BEST WASH RESULT

## GENIUS-X FINE FILTER SYSTEM

Best wash result and lower consumptions

The GENIUS-X fine filter system continuously puts the wash water through a system of strainers and filters during the washing process.

### Your benefits

- lower, constant water consumption
- precise dosing of the detergent and rinse aid as required
- reduced energy consumption
- no water exchange necessary

## THERMOSTOP FUNCTION

Hygienic wash result

Automatic cycle time control to achieve hygienic rinsing temperatures.

# EASY HANDLING

## ELECTRONIC CONTROL

Everything at a glance

With digital temperature indication and 3 programmes for easy operation.

## INTEGRATED WATER SOFTENER

Protects against calcification and increases service life

The water softening system, which can optionally be integrated, removes minerals from the water that can cause hardness. This prevents limescale deposits that lead to increased cycle times, burnt-out heating elements and unsatisfactory wash results.

## CLIP-IN WASH- AND RINSE ARMS

Make cleaning the machine as simple as possible

To make your work as easy as possible, both wash and rinse arms can be removed using the CLIP-IN system in just one step. Following cleaning, all it takes is another click to put the washing attachment back in place.

## RELIABILITY & FLEXIBILITY

### SMOOTH COUNTERBALANCED DOOR

Soft, silent opening and closing

The glasswasher doors have gas-filled shock absorbers to protect your tableware and prevent wear of the door suspension.

**What's more:** The flat rack guides on the inside of the door make loading and unloading the rack easy.

### DOUBLE-WALLED HOUSING

Reduced noise and energy emission

The machine is double-walled, soundproof and heat-insulated.

### 705 MM INSTALLATION HEIGHT

Designed with every type of counter in mind

Compact and space-saving: The glasswasher GXCB fits under every type of counter with its installation height of only 705 mm.
